The Metropolitan collection

The Metropolitan collection is a multi-functional collection offering a multitude of trendy design possibilities perfectly suitable for both corporate and hospitality projects. Inspired by the pulsating life of the metropolis, organic circles, linear expressions, strict squares, tartan structures and modern abstracts all merge together and form a contemporary collection of 11 expressive atmospheres – all at your disposal.

The Metropolitan collection is an indispensable design source for creating a supporting, subdued style or a space of vibrant and energetic colours.

All this with:

- More than 200 designs in more than 1000 colour versions
- Recolour options (see p. 153)
- No minimum order requirements
- 9 standard qualities (see technical specifications p. 159)
- Undisputed performance standard EN1307
- Use classifications to fit any need
- 24 hours sample service
- Ready for dispatch within 2 weeks

The Metropolitan collection is developed in ege's standard colour palettes. Colour codes GB1-12 equal solid colours and colour codes AC equal blend colours. Only patterns using solely solid colours (GB1-12) are available in the qualities Highline 630 and Highline Carré. If you want a pattern using blend colours in Highline 630 or Highline Carré, this will require a production trial run prior to final production. The patterns containing blend colours are marked with this symbol  indicating that a trial run is necessary.

Please note that both standard and special designs, with large uni-coloured areas, in Highline 80/20 1100 and Highline Carré might require an approved production trial run prior to final production.
